

App. No. 10/728,988

**REMARKS - General**

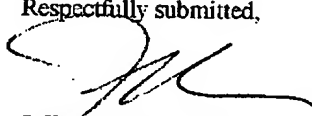

By the above amendment, Applicants have amended the title to emphasize the novelty of the invention.

Also applicants have rewritten all claims to define the invention more particularly and distinctly so as to overcome the technical rejections of Section 112 and define the invention patentably over the prior art. The new claims should be now allowable based on Examiner's comments on Page 4 of the Office Action.

**Conclusion**

For all of the above reasons, applicant submits that the specification and claims are now in proper form, and that the claims all define patentably over prior art. Therefore the applicant submits that this application is now in condition for allowance, which action is respectfully solicited.

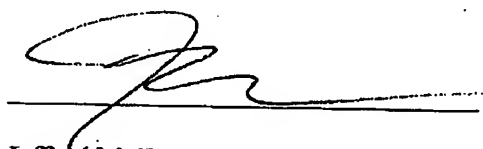

Respectfully submitted,
